

Course Evaluations Fall 2024, period 2

Teacher Report for 5304 Econometrics - Jaakko Meriläinen

Report prepared by **Quality Assurance**
Created **Thursday, January 16, 2025**

Courses Audience: 54
Responses Received: 29
Response Ratio: 53.70%

Report Comments

This report is based entirely on students' feedback collected via an online survey at the end of the course. All students registered for the course were invited to take the survey.

All ratings, are on a scale from 1 to 7, where 1 is "disagree strongly" and 7 is "agree strongly".

The report can be distributed as the teacher sees fit.

N.B. If there are course feedback surveys closing after the end of the current study period, this report might be updated.

For CIVICA courses, only students registered in SSE's student information system were surveyed.

Please contact SSEquality@hhs.se if you have any questions.

Teacher Questions

2. I received the help I needed from the teacher in an appropriate time frame.

Statistics	Value
Mean	6.60
Median	7.00
Standard Deviation	0.65

What concrete feedback do you have regarding the teacher's teaching?

Comments
Thank you for this course! I really enjoyed it, especially because I had the feeling to learn substantial and important methods that I can use in my future. I also really liked the (applied) guest lecture and your engaging and fun style of teaching! I also really liked the Kahoot quizzes and all more interactive parts of the lecture!
Fun and engaging.
Really only a minor point: Maybe, it would be helpful to use the same notation throughout the whole course, as for example the notation of covariates or instruments differs during the course.
Supergood teacher!! He seems superpassionate about this subject and superwilling to help people and has great knowledge
Very sympathetic teacher who really cares about the students. Keeps the time well and is well-prepared. Could be some more clarity in the core models, like have some slides first describing the model and then delve into examples. Some subjects were a bit jumping back and forth. But really inspiring teacher and this course I am sure will be even better next year and become one of those courses people remember as an epic course at SSE.
Very, very good at answering emails and explaining things in a good way. Very appreciated!
As mentioned he puts in a lot of energy into his work, and must be one of the professors that i have had that really takes his time to answer questions and are very clear with structure etc. He definitely puts in that little extra, which make it fun to be a student.
Jaakko is both engaging, invested and a cunning teacher which is very much appreciate. I also highly value the fact that he replied quick and careful whenever I emailed him. He was also kind and inviting which lead to people daring to ask questions and engage in discussion.
Jakko was very eager to teach us and he put a lot of effort into this course!
Found the lectures very interesting and the examples and memes fun and enjoyable, great job!
Knows what he is talking about and ready to discuss any topic within the econometric space. Highly recommend!
It was super helpful how active Jaakko was on canvas in the Q&A and discussion section. Jaakko also made the class engaged and offered insight for our future studies.
be a bit more specific in filtering out the relevant contents from the cited research papers and excerpts from the prescribed books
Amazing professor, very professional and caring

Course Satisfaction (scale distribution)

Course Satisfaction

Overall, I am satisfied with the quality of this course.

Disagree strongly	0	0.00%	
2	0	0.00%	
3	0	0.00%	
4	3	10.71%	
5	8	28.57%	
6	5	17.86%	
Agree strongly	12	42.86%	
Total	28		

Statistics	Value
Mean	5.93
Median	6.00
Standard Deviation	1.09

Equality and Diversity

In this course, the teacher(s) actively worked to include different people and perspectives. This was demonstrated in, for example, the selection of course materials, case studies and/or guest speakers as well as during lectures and classroom discussions through balanced speaking time and avoiding stereotypical examples.

Statistics	Value
Mean	6.15
Median	6.50
Standard Deviation	1.05

Course Statistics

3. I spent enough time and effort on this course to learn effectively.

Statistics	Value
Mean	5.70
Median	6.00
Standard Deviation	1.27

4. The course was well administrated.
