

Course Evaluations Fall 2025, period 1

Teacher Report for 5304 Econometrics - Jaakko Meriläinen

Created **Thursday, October 30, 2025**

Courses Audience: 47
Responses Received: 34
Response Ratio: 72.34 %

Report Comments

This report is based entirely on students' feedback collected via an online survey at the end of the course. All students registered for the course were invited to take the survey.

All ratings, are on a scale from 1 to 7, where 1 is "disagree strongly" and 7 is "agree strongly".

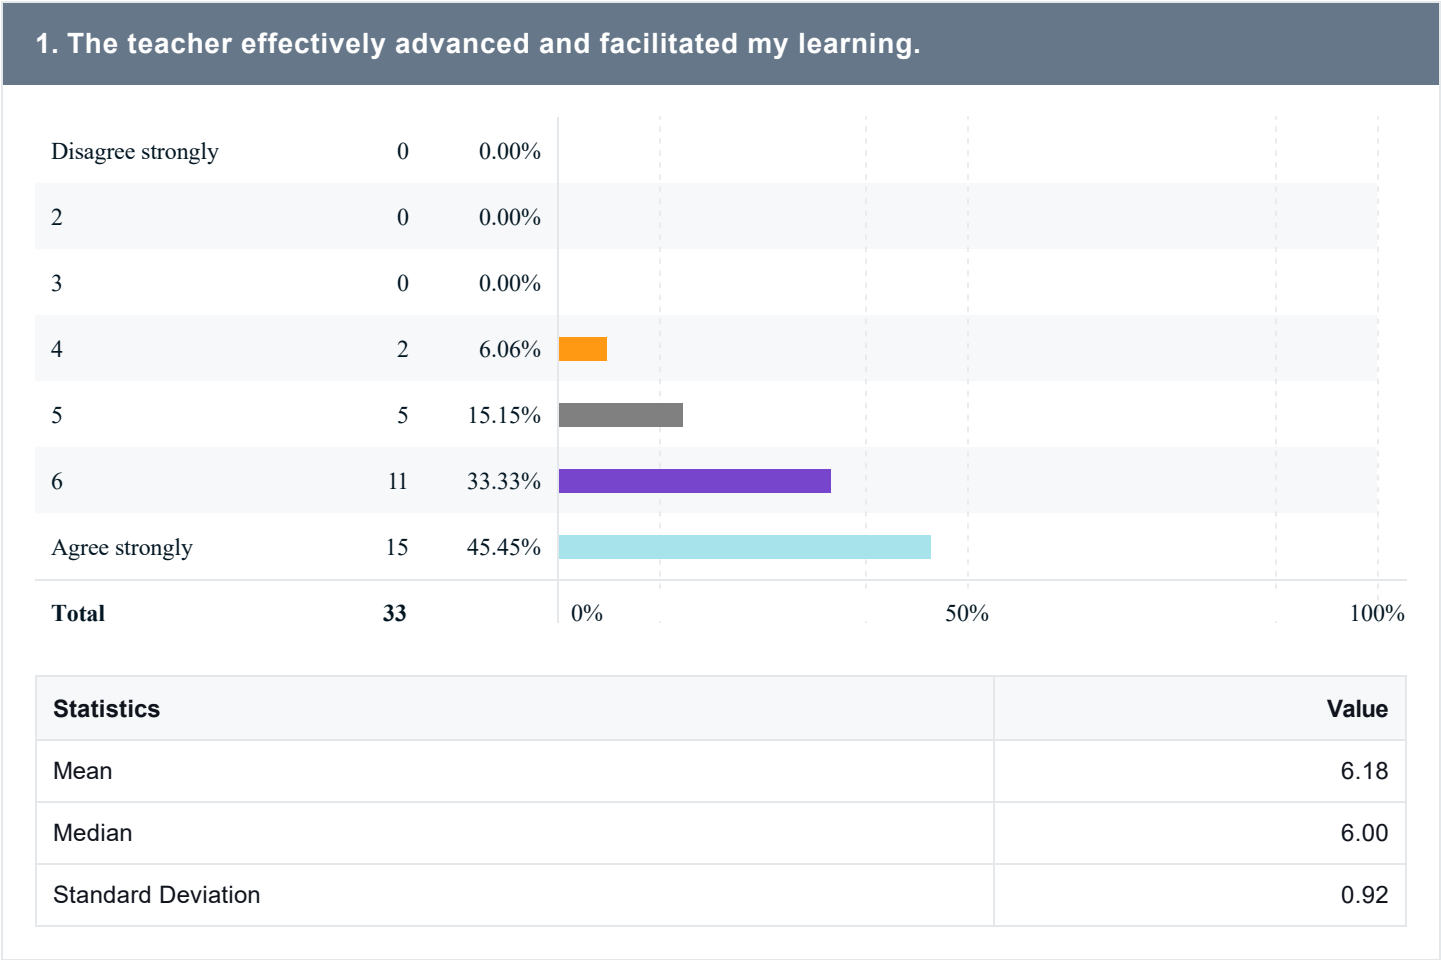

The report can be distributed as the teacher sees fit.

N.B. If there are course feedback surveys closing after the end of the current study period, this report might be updated.

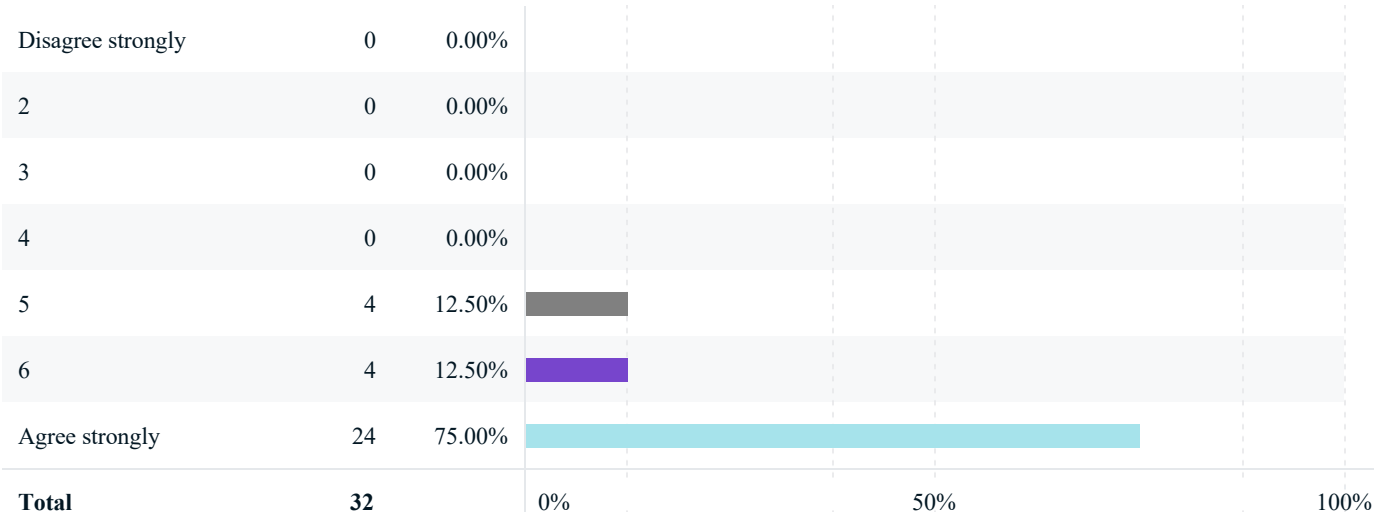

For CIVICA courses, only students registered in SSE's student information system were surveyed.

Please contact SSEquality@hhs.se if you have any questions.

Teacher Questions

2. I received the help I needed from the teacher in an appropriate time frame.

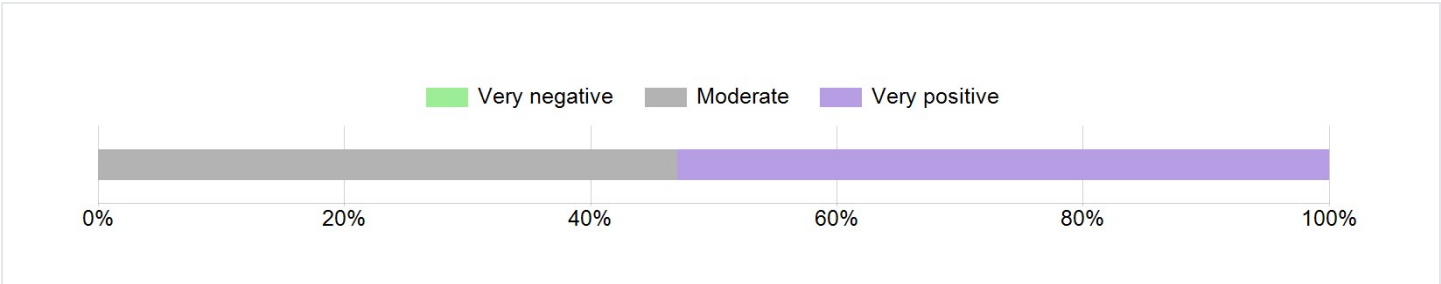

Statistics	Value
Mean	6.63
Median	7.00
Standard Deviation	0.71

What concrete feedback do you have regarding the teacher's teaching?

Comment
Really interactive approach to teaching: examples, discussion, answering questions.
I enjoyed that you nested all methods in real examples from academic papers, but they do help little to get an intuition for the methods. If you could start with simpler examples at the beginning and then expand on the basic intuition, this might help a lot of students.
Welcoming classes that had a good speed and good that he took pauses for questions
Quick replies and a great and motivational lecturer
Jaakko is great!
Creative and fun.
Fun teaching style which is great! Sometimes unstructured though
Extremely approachable, clearly knowledgeable about the subject material, attentive to questions and feedback
Good teacher that shows his passion for econometrics during class, makes econometrics fun but could explain/repeat core concepts a bit clearer so it is easier to follow the lectures
Keep doing what you're doing Jaakko!
Great teacher! Funny, and extremely helpful/responsive.
Really appreciate the anonymous suggestion box and the Q&A and how much he was willing to take feedback and be available to everyone. He seems like a really nice and understanding person and that translates to his teaching.
He was really helpful in answering questions through the Q&A section on canvas (sometimes within minutes!) which was super helpful in exam prep. He is also a really fun teacher. You can tell that he knows what he is doing but he still gets that some concepts might be hard for students like us and really tries to make us understand
See previous. Really took his time to answer our questions and make metrics fun. however sometimes, a bit too much material and unclearities on what was expected.
In general, a really good teacher and a specialist in the area. I appreciated that Jaakko was so engaged with the students, it really happens rarely! Real plus! the only disadvantage is that I found it sometimes hard to follow in the lectures, as if Jaakko took a bit too long to get to the point and then we had to rush through the method. But I guess the summaries were meant to facilitate the recap. Either ways, really good teacher.
I already mentioned this in the last section. You are one of the best professors I have had!
Really fun
Amazing professor! Made every class super fun and interactive and I enjoyed going for each and every one.
It is rather rare to have a professor who so willing to help a student understand.
Maybe can do more math
Very passionate, kind and helpful.

Course Satisfaction (scale distribution)

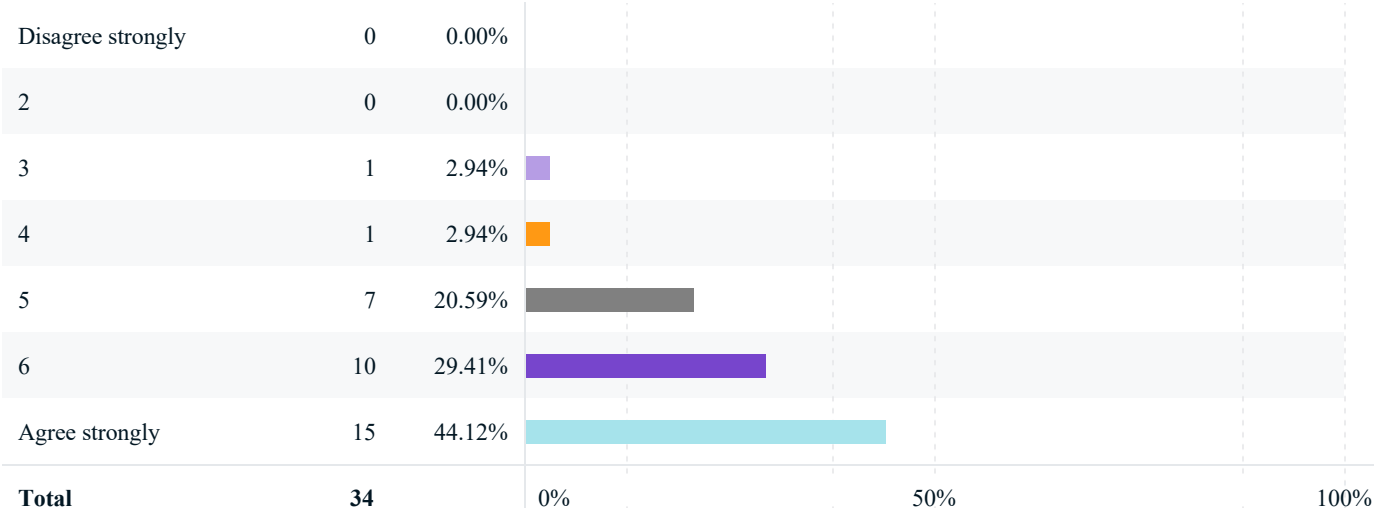

Course Satisfaction

Overall, I am satisfied with the quality of this course.			
Disagree strongly	0	0.00%	
2	0	0.00%	
3	1	2.94%	
4	6	17.65%	
5	9	26.47%	
6	7	20.59%	
Agree strongly	11	32.35%	
Total	34		

Statistics	Value
Mean	5.62
Median	6.00
Standard Deviation	1.21

Equality and Diversity

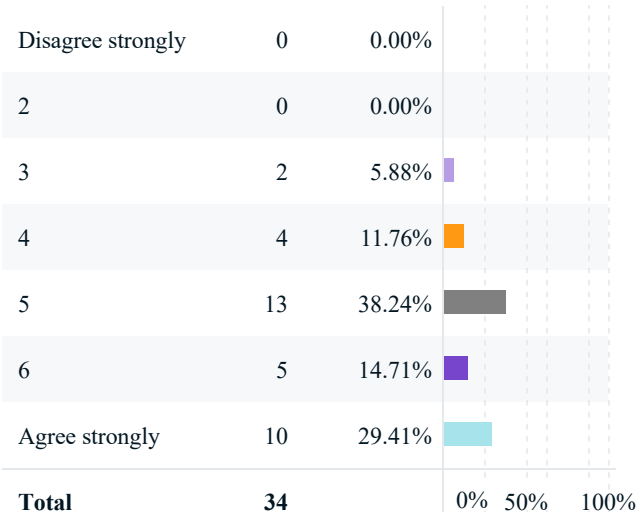

In this course, the teacher(s) actively worked to include different people and perspectives. This was demonstrated in, for example, the selection of course materials, case studies and/or guest speakers as well as during lectures and classroom discussions through balanced speaking time and avoiding stereotypical examples.

Statistics	Value
Mean	6.09
Median	6.00
Standard Deviation	1.03

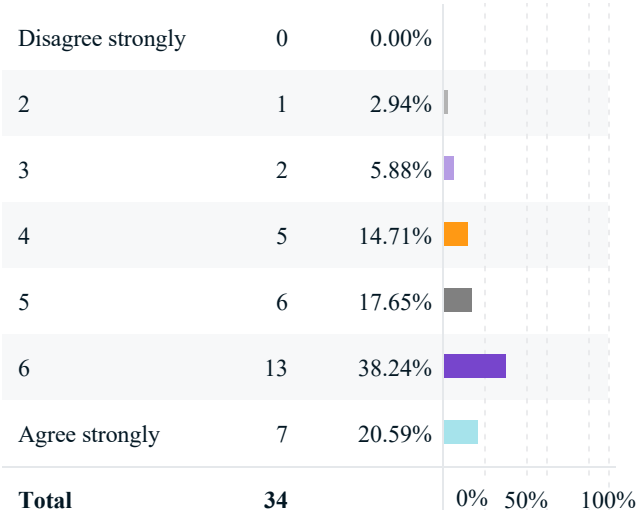

Course Statistics

1. I would talk very positively to other students about this course.

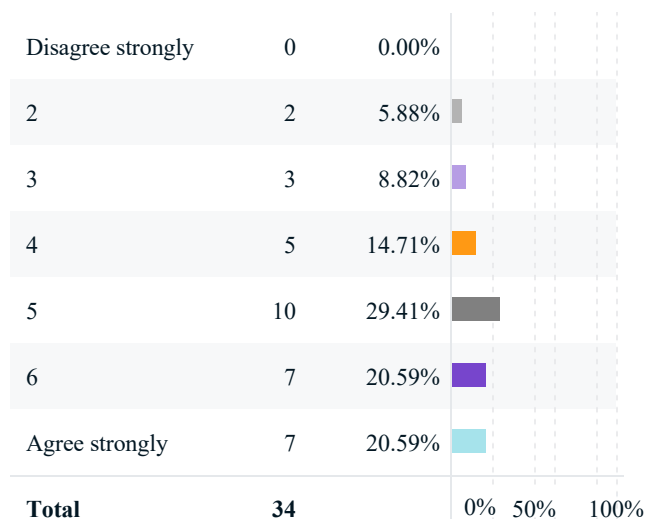

Statistics	Value
Mean	5.50
Median	5.00
Standard Deviation	1.21

2. The course material (literature, lecture notes, videos, cases, etc.) effectively contributed to my learning.

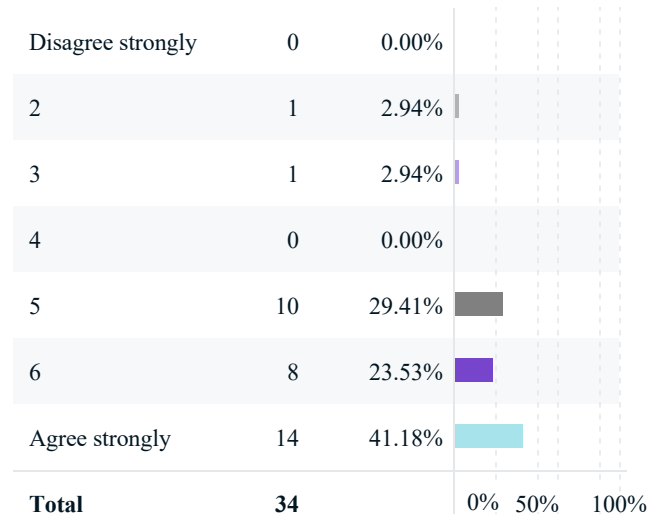

Statistics	Value
Mean	5.44
Median	6.00
Standard Deviation	1.31

3. I spent enough time and effort on this course to learn effectively.

Statistics	Value
Mean	5.12
Median	5.00
Standard Deviation	1.45

4. The course was well administrated.

Statistics	Value
Mean	5.91
Median	6.00
Standard Deviation	1.22
